

## Maes yr Haul Primary School Bridgend County Borough

An Eco-friendly approach to recycling and reusing Christmas jumpers and school uniform across the whole school.

## ECO-SCHOOLS WALES CASE STUDY

What did you do and how did you involve the whole school?

- *Our Eco committee arranged a school uniform sell and swap shop after school. We advertised it on Twitter to ask parents to donate any unwanted clothes. We also used our lost and found clothes.*
- *We had a Christmas jumper shop in our school fete. We asked our parents to donate any they had at home.*

How did you celebrate success and what are your next steps?

- We advertised our successes on Twitter to let everybody know how well we did.
- We have kept the money raised from our uniform shop, ready to use if/when needed on our Eco committee.
- We helped the PFA in the Christmas fete by donating the money raised to them.

## QUOTES

*The Eco committee is a reliable job and we are all determined to build the sustainability for Maes yr Haul– Lilly O'Byrne*

*The jumper sales have been a success, but we know we have more to do. We will definitely be doing it again but found that we had more success when the event was separate to the Christmas fete.*

How has the project impacted on your school and your community?

- *We raised money for our school and for PFA.*
- *We reused the clothes that were in lost property, rather than them going to waste.*
- *Our school community helped us to achieve our goal by sending in unwanted clothes.*
